

# PROJECT DEVELOPMENT PHASE

## PROJECT DEVELOPMENT – DELIVERY OF SPRINT- 2.

Date	14- November-2022
Team ID	PNT2022TMID39801
Project Name	Real-Time Communication System Powered by AI for Specially Abled

### Model Building:-

```
from gtts import gTTS
```

```
import os
```

```
my text= “Good Morning my love!No matter what happens, I know one person will be there for me.That’s you...! I have fallen in love many times.But everytime, it was with you! Everything feels empty when you are not around, but our love is what keeps me going.Miss you, Babe. We might be miles apart, but our souls are right next to eachother – that’s how strong our love is darling”.
```

```
language =’en’
```

```
output=gTTS (text=my Text,lang=language,slow=False)
```

```
output.save(“output.mp3”)
```

```
os.system(“start output.mp3”)
```

```
from gtts import gTTS
import os
my Text="Good Morning my love! No matter what happens, I know one person will be there for me.That's you...! I have falle

language = 'en'

output= gTTS(text=myText,lang=language,slow=False)

output.save("output.mp3")

os.system("start output.mp3")
```
